

# WE THANK YOU!

WHEN YOU PURCHASE A SHIRT YOU ARE DIRECTLY CONTRIBUTING 100 PERCENT OF SALES TO PURCHASE THE ITEMS LISTED BELOW TO ASSIST LEARNERS WITH DISABILITIES TO ACCESS EDUCATION IN LESOTHO

Equipment	Reason Required	Cost
<p><b>2 x Pediatric Walking Frames</b></p> 	<p>3 of our students require support for developing their walking skills. 2 of these students currently only have access to their wheelchairs for mobility but with a walking frame would be able to access an alternative form of mobility.</p>	<p>2000M each</p>
<p><b>1 x Walking Stick</b></p> 	<p>1 of our students currently uses tree branches as a means to support him walking to and from school each day with much difficulty. He requires a more permanent and supportive means of assisting him with his walking.</p>	<p>1000M</p>
<p><b>Ablenet Bigmack</b></p>  <p>The Bigmack Communicator is designed for those with motor, visual or cognitive impairments. It offers a 5" activation surface with angled base, durable construction, 75 seconds of recording time.</p>	<p>A Bigmack switch would help us support the development skills of our students who are currently</p>	<p>2500M</p>
 <p><b>Ablenet LITTLEmack</b></p> <p>The LITTLEmack Communicator has 75 seconds of memory to let students with disabilities communicate recorded messages. A one-shot timer prevents accidental repetition. An angled 2-1/2" switch surface makes it easy to see and access.</p>		<p>1500M</p>

<p><b>iTalk2</b></p>  <p>The iTalk2 dual-message communicator, from AbleNet is ideal for choice making. Easy to record messages. Instructions printed right on the device. Angled for easy access. Two snap caps included. Picture Communication Symbol storage area is built-in. With dual toy/appliance jacks you can easily pair communication with a fun activity. Ten seconds per activation area.</p>		2200M
<p><b>Step-by Step with Levels</b></p>  <p>Like the LITTLE Step-by-Step, but allows up to three selectable sets or 'levels' of messages. These can be on separate themes, for different activities or times of the day. FREE Snap Switch Cap and toy/appliance cable.</p>		5000M
<p><b>Global SuperTalker™</b></p> <p>The SuperTalker can meet each student's developing communication needs with the 1, 2, 4 and 8 message grid options. Begin with a single message button and, as the learner progresses, increase the complexity and choice by adding more buttons. The selectable grid formats make it easy to customise this communicator to your learners' needs. You can insert your own pictures to act as a prompt for each message too.</p> 		5500M

<p><b>Go Talk 4+</b></p>  <p>A powerful, portable, easy to use and very durable speech output device. Use it as an introductory communication aid and also for curriculum enrichment.</p>		1000M
<p><b>Go Talk 9+</b></p>  <p>A powerful, portable, easy to use and very durable speech output device. Use it as an introductory communication aid and also for curriculum enrichment. With additional functions added on from the GoTalk +4</p>		1500M
<p><b>Boardmaker v6 For Windows</b></p>  <p>Boardmaker is a symbol-based communication and educational materials. A drawing program combined with a graphics database. Boardmaker is a tool for creating symbol-based materials such as communication displays, worksheets and flash cards, visual schedules and social skills stories for children with autism spectrum disorders, books and symbol-supported literacy, song and story boards for preschoolers, and general educational and functional living skills materials</p>		10,000M
<p><b>Braille Slate and Stylus</b></p>  <p>Allows visually impaired users to create and read their own braille</p>	<p>Students will be able to use the stylus and slate to participate in classroom tasks and to learn the language of braille. This will allow students to respond to learning material and communicate more full in the class environment</p>	110M
